Neuro-Linguistic Programming is a pseudo-science that has dramatically improved the way that I approach business and social scenarios with confidence and success. NLP is an approach to communication that focuses on the link, hardwired in our brains, between language and behaviors. In that way, this book is more of a toolkit than a textbook.

~~Introducing NLP: Psychological Skills for Understanding ...~~

Neuro-linguistic programming (NLP) is an unvalidated approach to psychotherapy and a "model of interpersonal communications" based on the subjective study of language, communication and change. It was co-founded by Richard Bandler and linguist John Grinder in the 1970s as a method of personal development.
